WASHINGTON, May 19.—Senator Lo-
gan presented in the senate today as a
substitute for the labor arbitration bill
which recently passed the house, a bill
which in substance provides as follows:
For a commission of arbitration to be
appointed by the president, and to con-
sist of five members. One member to be
selected from the republican organiza-
tion, one member from the democratic
organization, one member from the union
of citizens experienced in the manage-
ment and operation of railroads and in
the transportation of property and pas-
sengers, but not in the employ of or
connected with or interested in any
railroad corporation or company, or en-
gaged in any business connected with
the transportation of persons and property,
and one member who is

IDENTIFIED ESPECIALLY WITH THE
LABOR INTERESTS.

and having a full knowledge of the
conditions and the employment of the
laboring people. The persons com-
prising the commission shall be men
bearing superior intelligence as to the
industrial and laboring interests of the
country. The usual provisions con-
cerning salary, clerks and traveling ex-
penses, etc., then follows. It is made the
duty of the commissioners to meet and
organize as soon as may be after their
appointment for the purpose of hearing
and determining upon matters and dis-
putes between transportation com-
panies, either by land or by water, and
their employees, as shall be submitted
to them for arbitration. Such submis-
sion to be in writing and signed by the
parties to the controversy. In all cases
submitted for arbitration the parties to
the same are required to sign an agree-
ment to submit to the award of the
commission. Every hearing and de-
cision shall be in a summary and in-
formal way, according to the principles
of equity and justice applicable to the
circumstances in the case, and each
party shall be given a full

OPPORTUNITY TO BE HEARD

in person and by witnesses and shall
have the right to be represented by a
counsel. After concluding the hearing
and determining upon matters and dis-
putes, the commission shall make its
findings in writing, with the find-
ing of fact upon which it is
based the majority of members con-
curring therein, and immediately transmit
the same, with a copy of all the evi-
dence, to the president of the United
States, who shall make the report pub-
lic as soon as received. A copy of the
award shall then be transmitted to the
district court of the United States in the
district where the controversy arose, and
it shall be spread upon the records of
the court and have the same binding
force and effect as a decree of the court,
and shall be enforced in the same way.
The commission is empowered to visit
any place where a controversy may
arise and it may take testimony, hear
counsel and make its decision at any
place it may think best. It shall report
the result of all investigations with all the
testimony. In every action in reference
to any controversy that comes before
it it may require United States marsh-
als to serve process.

WITNESSES SHALL ALSO DERIVE FEES.

The commission shall possess all such
powers to administer oaths, etc., as be-
long to United States commissioners.
It may upon any serious difference or
dispute on account of wages, oppres-
sion or wrong complained of by em-
ployees or employers repair to the place
where such complaints arise and make
a full examination and investigation of
the same and report to congress through
the president. The total expense of
the performance of such duties shall
not exceed \$50,000 per year. The com-
missioners of arbitration shall hold
their offices for three years, unless
sooner removed by the president for
good and sufficient cause.

More Murders by the Apaches.

NOGALES, Arizona, May 19.—Two
sons of Captain and Rade White, on
their way to the Agus Zarco ranch,
their home, were murdered yesterday
by Indians, one mile south of here.
Three horses, bearing empty saddles,
ran into Pinar de Plata this morning;
the same horses had passed an hour be-
fore bearing two men named Sullivan
and Moore and a courier riding toward
Nogales trying to overtake them. All
are believed to have been killed. Oscar
Darwin and his partner, prospectors, are
also reported murdered. Captain
Lawton is in close pursuit. The In-
dians have a number of wounded in the
Huachuca mountains, and Lawton, it is
expected, will overtake them there.

How Miles Manages the Campaign.

SAN FRANCISCO, May 19.—A Chroni-
cle's Tombstone, Arizona, special says:
Captain Keys and Lieutenant Ward
have been arrested by order of General
Miles for dilatoriness in proceeding to
the assistance of Captain Labo during
the latter's recent engagement with the
hostiles at Calabazas. They have been
taken to Fort Grant and their com-
mand turned over to Captain Lebo.

Another Great Strike Impending.

PITTSBURGH, Pa., May 19.—The largest
and most important labor movement of
the season is being worked up by the
employees of the Pennsylvania railroad.
So quietly has the matter been con-
ducted that the officials were ignorant
until today that a petition was being
circulated among their employes, and
signed by nearly all to whom it was pre-
sented, asking for an advance of 10 per
cent in wages, and also binding the
signers to join the Knights of Labor. It
is understood that similar petitions are
being circulated at different points
along the Pennsylvania railroad. The
petitioners base their claims on a strike
ground that there has been a general
demand for shorter hours in other lines
of business, and that they are justified
in asking for a proportionate advance in
wages. It is understood that the offi-
cials will be given reasonable time for
the consideration of the petitions. In
case of a successful demand, the strike
will be made, to be followed by a strike
if coercion should be necessary to suc-
cess. The movement embraces passen-
ger and freight men and all employed
in the yards.

The Ex-President in Danger of a Collapse
at Any Time.

NEW YORK, May 19.—Ex-president
Arthur is worse now than he has been
for some time. He suffers severely
from a pain in his back, and it is feared
that he may have been exposed to a
draft, and so caught cold. The
manner in which his system succumbs
to the slightest baneful influences is
thought to indicate that the improve-
ment which has been noticeable in his
case for the last ten days has only been
fictitious, and that there is danger of a
sudden collapse at any moment.

Ex-President Arthur took a drive yes-
terday in Central park. This was his
first outing since his illness has as-
sumed a alarming character.

The Louisville Races.

LOUISVILLE, May 19.—The "rath-
er" was pleasant and the track fast.

quarters of a mile; Potosi won by a
length; Hinds, second; Bruc-a-Brac,
third. Time, 1:30.

Second race—Mile heats; first heat

rest distanced. Time, 1:30. Malva won
the second heat in 1:42, and had a walk
over for the third heat, Adrian being
withdrawn.

Third race—One and one-eighth
miles; Chance won by four lengths;
Eloise, second; Blue Stone, third. Time,
3:17.

Fourth race—One and one-fourth

Murdered for Money.

DENVER, May 19.—An Omaha special
to the Republican says: Early this
morning the body of a dead man was
found lying near the Union Pacific
track, in the southwestern outskirts of
the city. For several feet around the
body the ground was soaked with
blood. An examination of the corpse
showed that the man evidently had been
murdered. No one knew the deceased
positively, but it is supposed he was a
German and that his name was Rupp,
as an Omaha Savings bank book, with
that name on it was found in his pocket.
He was 35 years old and had lived in
Omaha for about two years.

Congress.

WASHINGTON, May 19.—In the house
today the time was spent principally in
"blasting" the Pacific Mail Steamship
subsidy scheme, and the usual rot in
the shape of speech making was indulg-
ed in by various members who daily
pose before the country as the watch
dogs of the treasury, upholders of the
American workingman, etc. In order
to catch votes, and never consider the
necessities of the business interests of
country. Of course adjournment
came before any business was transac-
ted.

Land Slide on the Santa Fe.

RATON, May 19.—A heavy landslide
at the east end of the Raton tunnel de-
layed train 101 seven hours last night,
passengers and baggage being trans-
ferred to the south bound train. A large
force of men are at work repairing the
damage.

A Lockout Ended.

NEW YORK, May 18.—Twenty-one
firms, composing the Newark Furniture
Manufacturers association, who locked
out their workmen on the 1st inst., de-
clined to end the lockout today and not-
ified their men to return to work.

ROSS INTERVIEWED.

The Confirmation of all Federal
Appointees Assured.

The Re-Appropriation Bill Almost
a Sure Thing, Having been Favor-
ably Reported Upon.

Special to THE GAZETTE.

RATON, New Mexico, May 19, 1886.

A reporter of THE GAZETTE met Gov-
ernor Ross at Raton tonight, on his ar-
rival in this city, and interviewed him
on the various subjects in which the
people of the territory are interested
and of which the governor has full
knowledge. He is looking well and of
course in a most happy frame of mind
resulting from the complete victory he
has gained over the crowd which has so
persistently and bitterly fought his con-
firmation as governor.

Governor Ross said to THE GAZETTE
reporter: "I now propose to go to work
for the benefit of the territory. I have
friends to reward, but no enemies to
punish." The governor is positive that
all the nominees to the territorial offices
will be confirmed. He said the fight on
General Julian is weakening and his
and all other confirmations are soon to
follow.

While in Washington the governor
went before the committee on territor-
ies and had a free and frank conversa-
tion. He said he had come to face
whatever charges might have come in,
and ask that a prompt settlement of his
case be made. He asked no man to
vote for his confirmation, but simply
wanted his case settled. Within fifteen
minutes after leaving the room the com-
mittee voted a favorable report for his
confirmation.

The governor's reason for remaining
in Washington was to secure the con-
firmation of the entire list of federal ap-
pointees for the territory, and he was
glad to say that every man will be con-
firmed within a reasonable time. The
governor says the president and cabi-
net take great interest in New Mexico,
and all express themselves well sat-
isfied with the course things are taking
here.

The confirmation strengthens the
governor and he says he will now be
able to accomplish much good work
which he was unwilling to undertake be-
fore.

The governor's idea of reappropriation
is not for the purpose of changing
majorities, but to base the representa-
tion strictly upon the population of the
territory. No changes are to be made
except where demanded in justice to
localities not having the representa-
tion to which they are entitled. He is
not confident of securing the passage
of the bill as favorable. The territorial
committee of the house, largely
through the influence of Delegate
Joseph, have recommended the pas-
sage of the measure.

Ross at Raton.

Special to THE GAZETTE.

RATON, May 19.—Governor Ross ar-
rived here at 12 o'clock.

He was met by a large crowd, and
rushed with a royal reception.

Large numbers of strong adherents
admire him in this section. On the
arrival of the gubernatorial party there
was a magnificent display of fireworks,
and the Gate City band added to the
joyousness of the occasion by their ex-
cellent music. The governor was pre-
sented to a number of people, and sev-
eral addresses were made, all of which
were complimentary on his confirma-
tion and commendatory of his actions
since his appointment as governor.

The governor in a short address thank-
ed his friends for their demonstration
of friendship and support, and assured
them that at no time for any action of
his should they have cause to regret
the confidence they had manifested in him.

Irish Methodists and Home Rule.

DUBLIN, May 19.—Mr. McKee, vice-
president of the Irish Methodist con-
ference, has withdrawn the charge brought
against Rev. Hughes of inciting to rup-
ture the Methodists by advocating
home rule. Numerous letters are re-
ceived complimentary on his confirma-
tion and commendatory of his actions
since his appointment as governor.

An American Abroad.

CONSTANTINOPLE, May 19.—United
States Minister Cox today had a three
hours' interview with the sultan and
presented to his majesty the gifts sent
by President Cleveland, embracing a
thousand views of scenery in differ-
ent parts of the United States, portraits of
Geronimo and other celebrated Indians,
together with a lot of public docu-
ments in the shape of census reports.
His majesty said he had recently or-
dered the taking of the Turkish census
and asked Mr. Cox to co-operate in the
work by giving the benefit of his Ameri-
can experience. The sultan will give
a grand banquet to Mr. Cox on the 26th
instant.

Murder in Denver.

DENVER, May 19.—James Whitney,
a street car driver, while turning his
car at the end of the Broadway line at
10:30 tonight, was shot through the
heart and instantly killed by an un-
known person. The murderer escaped.
The cause of the deed is supposed to
have been for the purpose of robbery.

A New Grain Shipping Point.

MONTREAL, May 19.—Over one mil-
lion bushels of grain are reported to be
en route from Chicago to Montreal, and
the prospects for large grain shipments
from this point is regarded as good.

The Maxwell Trial.

ST. LOUIS, May 19.—The trial of Max-
well was continued today, and a large
number of witnesses were examined,
but no important testimony was pro-
duced further than has already been
printed.

The Senate.

WASHINGTON, May 19.—The time of
the senate was taken up today in con-
sidering pension bills. It seems to be
the only object of many of the republic-
an senators to make political capital
for themselves, and they are continu-
ally introducing and advocating such
bills as the pension grab, knowing that
if passed they will be defeated in the
house or else vetoed by the president.
Speaking of the bills which are now
under consideration the New York
Times, (republican) says:

Reckless, profligate demagogism appears to
be running wild in congress. Senator Logan,
who introduced last week a pension bill whose
enactment would require the expenditure of
more than \$50 millions, caused the senate to
adopt a resolution yesterday asking the
senate committee to report Senator Logan's bill
repealing the arrears limit, which was referred
to that committee last December. Senator
Blair is the most prominent member of the
committee, and it is probable that he was un-
willing that the Logan bill should stand in the
way of his own measure, formerly known as
the Galloway bill, which was favorably reported
some weeks ago. The Logan resolution will
probably cause the Logan bill to be favorably
reported this week or next. The senate will
then be well supplied with projects for pension
legislation. It has received from the house
the Mexican pension bill (estimated expendi-
ture \$14 millions), and Senator Logan's new
bill (estimated expenditure not less than \$50
millions) will be offered as an amendment.
The Galloway bill (estimated expenditure 50 mil-
lions a year) will probably be offered as another
amendment, and the repeal of the arrears limit
(estimated expenditure 250 millions) will be
brought forward in the same way. The defeat
of the Logan bill last year was due to the
strong opposition of Senator Sherman, but he
has since changed his mind (since the
presidential worm got in it) and in all proba-
bility will vote for the bill this year. The fact
that the nation's surplus was less than \$1,000,000
last year seems to have been forgotten by
certain senators who ought to "ear such things
in mind."

Paris, May 19.—The government has
decided to introduce in the chamber of
deputies a bill to dispose finally of the
pretensions of the Orleans princes.

THE RELATIONS BETWEEN GERMANY
AND FRANCE.

Baron De Courcel, the French em-
bassador at Berlin, has arrived here to
confer with the government on the
relations between France and Ger-
many. It is reported that these rela-
tions are at present strained.

THE PANAMA CANAL.

M. Roussseau, the delegate appointed
by the government to inspect the work
on the Panama canal, has submitted a
report in which he denies the correctness
of the canal company's statement
respecting its facilities for construction,
the time when the canal will be com-
pleted and the amount of money still
required to accomplish the work. M.
Roussseau, the minister of public works,
will inform M. De Lesseps and his fel-
low directors that they must reply to
M. Roussseau's report, as the govern-
ment cannot authorize the proposed issue
of lottery bonds until the position of
the company is made clear.

A Banishment Rescued.

WASHINGTON, May 19.—In the house
today a joint resolution was reported
from the committee on laws regula-
ting elections proposing a constitutional
amendment for providing for creating
and defining the office of second vice
president of the United States. It pro-
vides that in case of the removal from
office or the death, resignation or con-
stitutional disability, both of the presi-
dent and vice president, the office of
president shall devolve on the second
vice president of the United States, who
shall be voted for at the same time and
in like manner and for the same term
as the president and vice president by
the electors appointed by the several
states. In case of the removal of the
vice president from office, or his death,
resignation or constitutional disability
or when the vice president exercises the
office of president of the United States,
the second vice president shall be presi-
dent of the senate and he shall also act
as such in the absence of the vice presi-
dent from the senate, but shall have no
vote unless the senate be equally di-
vided.
